

**Peter A. Boone, PhD.**  
Texas General Land Office

Dr. Boone has been with the Texas General Land Office since 1985 where he is Chief Geologist, Energy Resource Division. He supervises the geologic and engineering activities of the Energy Resources Program. Responsibilities include assessment of the mineral potential of all state-owned properties prior to their lease or sale, the pooling of state lands, and the monitoring of activity after a lease has been issued.

Dr. Boone received his PhD. in Geology from Texas A & M University in 1972.
