

Dr. Timothy M. Dellapenna

Assistant Professor in the Department of Oceanography at Texas A&M University-Galveston.

He holds a BS in Geology from Michigan State University, an MS in Geology and an MS in Hydrogeology from Western Michigan University, and a Ph.D. from the Virginia Institute of Marine Science.

Dr. Dellapenna is a coastal marine geologist, whose research interests focus primarily on seabed dynamics and sedimentary processes in marine systems. He utilizes high-resolution geophysical and sedimentological techniques to investigate modern sedimentary processes in near-shore coastal and estuarine systems.
