

Hugo Bermudez

Mr. Hugo Bermudez graduated from Texas A&M University with a Masters of Engineering in Ocean Engineering. He has worked as a professional coastal and hydraulic engineer for the State of Texas and as a consulting engineer. Mr. Bermudez' professional experience includes all phases of coastal and hydraulic engineering works, from project conceptualization and planning, to analysis, design, and permitting. Mr. Bermudez has managed over 20 coastal engineering projects in Texas and Louisiana since 2000, and is currently a vice-president at Coast and Harbor Engineering, Inc., in Austin, TX.
