

Captain Thomas Rodino

Captain Rodino is a 1970 graduate of the U.S. Coast Guard Academy who retired from active duty in 1997. He has extensive background in maritime safety and disaster planning and response. While with the U.S. Coast Guard, he held major program management responsibilities and command responsibilities as Captain of the Port in Corpus Christi. He managed multiple response efforts for both natural and man-made disasters as well as environmental protection operations. Since joining Shiner Moseley and Associates in 1997, Captain Rodino has had major responsibilities in diverse fields including pre-positioned hurricane response contracts, LNG terminal siting safety and evaluation, container terminal marine operations, landside transportation infrastructure, and planning for a “spaceport” to accommodate the next generation of RLVs (reusable launch vehicles) to replace the space shuttle.
